Salvation Army Leader to Talk Before Rotary

The Albany Rotary Club is promised a most promising program next Tuesday with a noted Salvation Army leader as speaker of the day. Major Ernest R. Orchard, brilliant speaker and youth worker, and a fourth generation worker with the "Army", has been secured by Program Director Len Pecchenino for the club's luncheon meeting.

Major Orchard served as corps commander and director of operations in many of the nation's leading cities, among them St. Louis, Mo., Detroit, Mich., Ft. Wayne, and Indianapolis, Ind., and Duluth and St. Paul, Minn. Since 1955 he has been associated with the Salvation Army Territorial Headquarters Staff of the Western Territory in San Francisco. He has been active with the Salvation Army since being commissioned with Mrs. Orchard in 1931, except for the years from 1952 to 1955 during which he was a television personality, a news analyst, and a public forum director.

Last Tuesday Rotarians heard Public Relations Director of the East Bay Municipal Utility District give an outline of the utility's scope, illustrated by a beautiful motion picture in color covering its scope.

Flower Arranging, Color and Design At Cornell School

Now that Spring is "busting out all over" with an endless variety of growing things, two classes in flower arranging, color, and design will be offered this quarter. Taught by Mrs. Alice Girvin, an afternoon class, from 1 to 2:30, and an evening class, from 7 to 10, will be available on Thursdays in room 5 at Cornell School.

The established principles of good design are used by Mrs. Girvin in showing the students how to arrange fresh flowers, leaves, succulents, dried materials, wood, rocks, weeds, and accessories, to produce beautiful and artistic arrangements. There are weekly demonstrations by the teacher, showing the use of the proper containers and how to make special arrangements for specific places in the home. For those interested, flower-show techniques will be taught.

To make attractive flower arrangements, table settings, and similar decorative accents, students should understand composition, scale, proportion, rhythm, balance, texture, and color. Mrs. Girvin will give a brief lecture on these principles at each class session and demonstrate how to apply them during the workshop period that follows.

Class members should, as far as possible, bring their own materials and containers. However, accessories and additional containers will be available for purchase through the school for those desiring them.

FIRE HOUSE LOT DEAL ORDERED COMPLETED

The city council on Monday night instructed Mayor Howell to go ahead with the purchase of the property at 1110 Washington Avenue, adjoining the fire house, in accordance with the original resolution adopted a month ago but held up for a 30-day period by the threat of a referendum questioning its legality.

The purchase involves the payment of \$11,000, from the capital outlay fund, set aside for the purchase of property or construction of city buildings. In addition there are commissions and fees amounting to \$743.50 which will be a part of the total payment. The go-ahead was given by a 4-0 vote. Councilwoman Zahn was absent.

At the time the original purchase was approved Mrs. Zahn opposed on the ground she thought the price was excessive and that the deal was being hurried through without proper study. She promised to circulate a referendum petition calling for a citizen vote, but apparently was unable to secure the necessary 835 signatures City Clerk McLean declared would be necessary to enforce an election. City Attorney Robert J. Foley had told the councilmen the previous resolution would cover the matter if they reaffirmed their action.

Members of the council declared this was the first forward step in the move to provide the city with a new fire house and police station. The present housing is approximately 50 years old, and during the last year has cost hundreds of dollars for termite treatment, repairs to rotted walls, and a leaky roof.

Among other matters acted upon were:

On motion of Councilman Keck a further letter was ordered sent to Albany's legislative representatives again urging passage of the amended health bill which is of special interest to Albany.

Heard a report on fishing at the city dump, and the recommendation that individual permits be issued to fishermen absolving the city from liability for any injury or damage sustained while on the city property. The entire matter was ordered held over to next Monday for further study.

City Engineer McAuley reported that 390 old automobile tires had been removed by the contractor hired by the city, and recommended that the contractor's bill for \$546 be honored. He said there still were some 300 tires remaining on the islands, but that the city employees would be able to remove these.

Amendment to the poultry and rabbit ordinance to include the supervision of aviaries within the city, was passed to second reading and publication by a vote of 3 to 1. Mayor Howell again voting "No" on the ground there were already too many minor restrictive laws of this kind on the city's books.

The city engineer reported that the city's "Clean-up Week" was a decided success on the basis of the volume of material collected, but he thought the matter required further study on methods and procedure. He presented a claim for \$25 received from a citizen, who claimed valuable material he had temporarily stored in front of his place had been inadvertently carried off.

Appeal from a ruling of the Planning and Zoning Commission relative to zoning of property at 923 Key Route Boulevard on behalf of Mrs. S. Minassian at that address, was ordered held over to May 20. The city attorney declared it would be necessary to hold a public hearing, before the council could take final action.

Request of Police Chief Jensen that Yvonne Marshall be appointed a school crossing guard was approved. The council also approved the appointment of Jean K. Lehman as a "Non-certified Temporary Policewoman Clerk, for three months, at a salary of \$118 per month" worked.

The council also voted to accept the report of the city engineer on the claim of C. A. Templeton, 912 Ventura Avenue, for reimbursement of money spent on sewer stoppage, and to deny the reimbursement.
